

## Why the ARAN ISLANDS?

Named one of the top 15 islands in the world, the Aran Islands are a MUST visit on Ireland's Wild Atlantic Way. If you want to experience genuine native Irish culture, this is where you go! You'll be greeted by a traditional 'Fáilte Romhat' (you're welcome) as the islanders still speak 'Gaelic' as their primary language. The islands are geologically an extension of the Burren – a Unesco World Heritage site and with a low population density, it's no wonder these islands remain unspoiled to this day.
